

Press Release Singapore project

With your car into your apartment at a height of 100 m ?

This dream will come true in Singapore where 2 car park places will be provided for each apartment on 30 levels .

Car lifts are not suitable, but the Wöhr Multiparker 750 is perfect for parking the Ferrari, Porsche or Rolls-Royce smoothly and safely on each floor level.

While the owner travels fast and comfortably by elevator into his apartment, the Multiparker 750 moves his car to the required level. Once the shaft doors have been closed automatically, the shopping bags can be taken out of the car and the car can be presented on the terrace at sunset cocktail time together with an enhancing view over the city.

A special solution not only for car freaks but also singles or families, who appreciate this convenient luxury and enjoy to live with their car within their view.
